PROFESSIONAL EXPERIENCE

Senior Software Engineer | Confidential Product & Consulting Engagements

May 2025 - Present | Remote

- **Delivery & scale.** Delivered and stabilized 8+ production products across web, iOS, and Android with **React, Next.js, React Native, TypeScript**, spanning real estate, telecom, analytics, AI-assisted nutrition, education, social, and real-time communication products.
- **Geospatial & data.** Architected map- and data-heavy workflows with **Mapbox, Google Maps, Apollo GraphQL, TanStack Query, Zustand, Redux Toolkit**, including Google Maps-to-Mapbox migration, infrastructure visualization, charts, advanced tables, validated forms, file uploads, PDF/XLSX exports, and reusable UI systems.
- **Recovery, AI & backend.** Re-engineered an AI-generated React platform with modular architecture, tests, validation, and **Sentry** observability; prepared **Supabase-to-Node.js** migration and maintained AI/payment workflows with **OpenAI, Anthropic, Stripe**.
- **Mobile, real-time & leadership.** Built production features with **WebRTC/Daily, Socket.IO, Whisper/Vosk, Firebase, Persona, RevenueCat** for calls, speech transcription, privacy/safety controls, feeds, camera/video/file workflows, push notifications and subscriptions; supported **App Store / Google Play** releases and mentored 1 intern developer.

Senior Frontend Developer | Confidential Client Project

Jan 2025 - Mar 2025 | Remote

- **Greenfield platform.** Designed and delivered an admin product from scratch with **React, TypeScript, TanStack Query, TanStack Router, React Hook Form, Tailwind CSS, Flowbite**, defining architecture, reusable components, and API integration patterns.
- **Operational workflows.** Implemented authentication, CRUD, moderation, filtering, sorting, pagination, validation, responsive UI, and accessibility for all core entities, centralizing daily administration in one interface.

Middle Frontend Developer | Confidential Logistics Product Teams

Apr 2023 - Dec 2024 | Remote

- **Logistics systems.** Extended 2 platforms with real-time messaging/calls, cost calculations, route planning, role management, and advanced filtering using **React, TypeScript, WebSockets, Mapbox, Redux Toolkit/Zustand, React Query**, supporting administrator, driver, and customer workflows.
- **Architecture & reliability.** Contributed to requirements, library selection, estimation, prioritization, and reusable frontend patterns; led critical-flow E2E coverage with **Cypress**, improving regression protection across frequently changing modules.
- **Open source.** Published an accessible React Autocomplete NPM package with async search, debouncing, keyboard navigation, ARIA support, custom rendering, and multiple styling strategies.

Frontend Developer | Confidential E-commerce Product

Jan 2022 - Apr 2023 | Remote

- **Commerce.** Built 6 core areas with **Next.js, Redux Toolkit, React Hook Form, SCSS**: filtering, comparison, favorites, checkout/payment, corporate content, and administration.
- **Ownership.** Integrated APIs, refined responsive UI, estimated work, refactored components, and contributed to architectural discussions as ownership expanded beyond individual features.

Junior Frontend Developer | Confidential CRM Product

May 2021 - Jan 2022 | Remote

- **CRM foundations.** Built reusable **React + TypeScript** components across 4 modules - client profiles, task tracking, notifications, and user roles - with REST CRUD integration, React Hook Form validation, and responsive Figma-based layouts.
